7. Handling and storage

Handling:

- Carefully follow the instructions on the package or on the attached leaflet.
- Avoid any type of use not foreseen in the instructions.
- Avoid mixing with other products or similar products or with substances not provided for in the specific instructions.
- Never put the spilled product back in the original containers for a new use.
- Keep out of reach of children.

Storage:

Store in dry and well ventilated places (room temperature). Do not store or use the product near open flames or sources of heat or electrical appliances or in sunlight. Close the container well after use.

8. Protective devices

Not any.

9. Chemical-physical features

1.0	Colour	/	2.0	Odour	standard perfume
3.0	Fisical state at 20°C	trasparent liquid	4.0	Density (g/ml) at 20°C	0,85 – 0,95
5.0	Viscosity at 20°C	500-600 cps RPM 100; Spindle 1	6.0	Boiling point	/
7.0	pH at 20°C	6-7	8.0	Water solubility	Total
9.0	Flash point	28.5°C			

10. Stability

Does not decompose whether used normally

11. Toxicological information

According to Regulation (EC) no. 1223/2009, cosmetic products must not cause harm to human health if applied under normal or reasonably foreseeable conditions of use.

The placing on the market of cosmetic products whose final formulation has been the subject of animal testing is prohibited; therefore toxicological data relating to the finished product are not available.
